SUMMARY

Frontend Developer focused on building responsive and user-friendly web applications using React and TypeScript.

Experienced in developing reusable component-based architectures, translating Figma designs into production-ready interfaces, and optimizing UI for performance and accessibility.

Delivered multiple real-world projects including commercial websites, landing pages, and portfolio applications. Strong attention to detail, clean code practices, and modern frontend workflows.

PROJECTS

Portfolio Website

React • TypeScript • Tailwind CSS

- Built a modern responsive portfolio with reusable components
- Implemented scalable component-based architecture
- Optimized layout for different screen sizes and devices

Freelance Website — Content Agency

HTML • CSS • JavaScript

- Converted Figma design into a production-ready website
- Built responsive layout and improved usability across devices
- Ensured cross-browser compatibility

Non-Profit Organization Website

Bootstrap • HTML • CSS

- Developed accessible and responsive website structure
- Improved content readability and navigation
- Focused on clean UI and user experience

Pet Products E-commerce Website

- Built an online store from scratch
- Structured product pages and UI layout
- Managed updates and interface improvements
